

External/prospective validation

- Toolbox with CMD and UI is available for usage
- <https://github.com/latypovt/ContConv.git>
- External validation
 - DTI - TN dataset, nerve/brain diffusivity
 - T1c - prospective validation, THP (Dr. Ben Fine)
- Testing unpaired GAN, DPM

Timeline

Summer

- Development of DDPM-based conversion framework
- Prospective testing of models on external datasets

Fall

- First public version of tool
- Manuscript

Winter

- Assessment of prospective usage of framework
