

Design of study

Work in progress

Supervised ML classification task

86 TN subjects with
T1 and DWI imaging

Initial diagnosis of TN

Freesurfer recon-all (GM)

420 T1 imaging metrics in
Destrieux atlas parcellation

- Cortical GM
- Thalamus
- Hypothalamus
- Hippocampus
- Amygdala
- Basal Ganglia

FSL DTI estimation (WM)

144 regional DTI scalar
measurements in JHU White
matter atlas

- FA
- AD
- RD

Duration of response

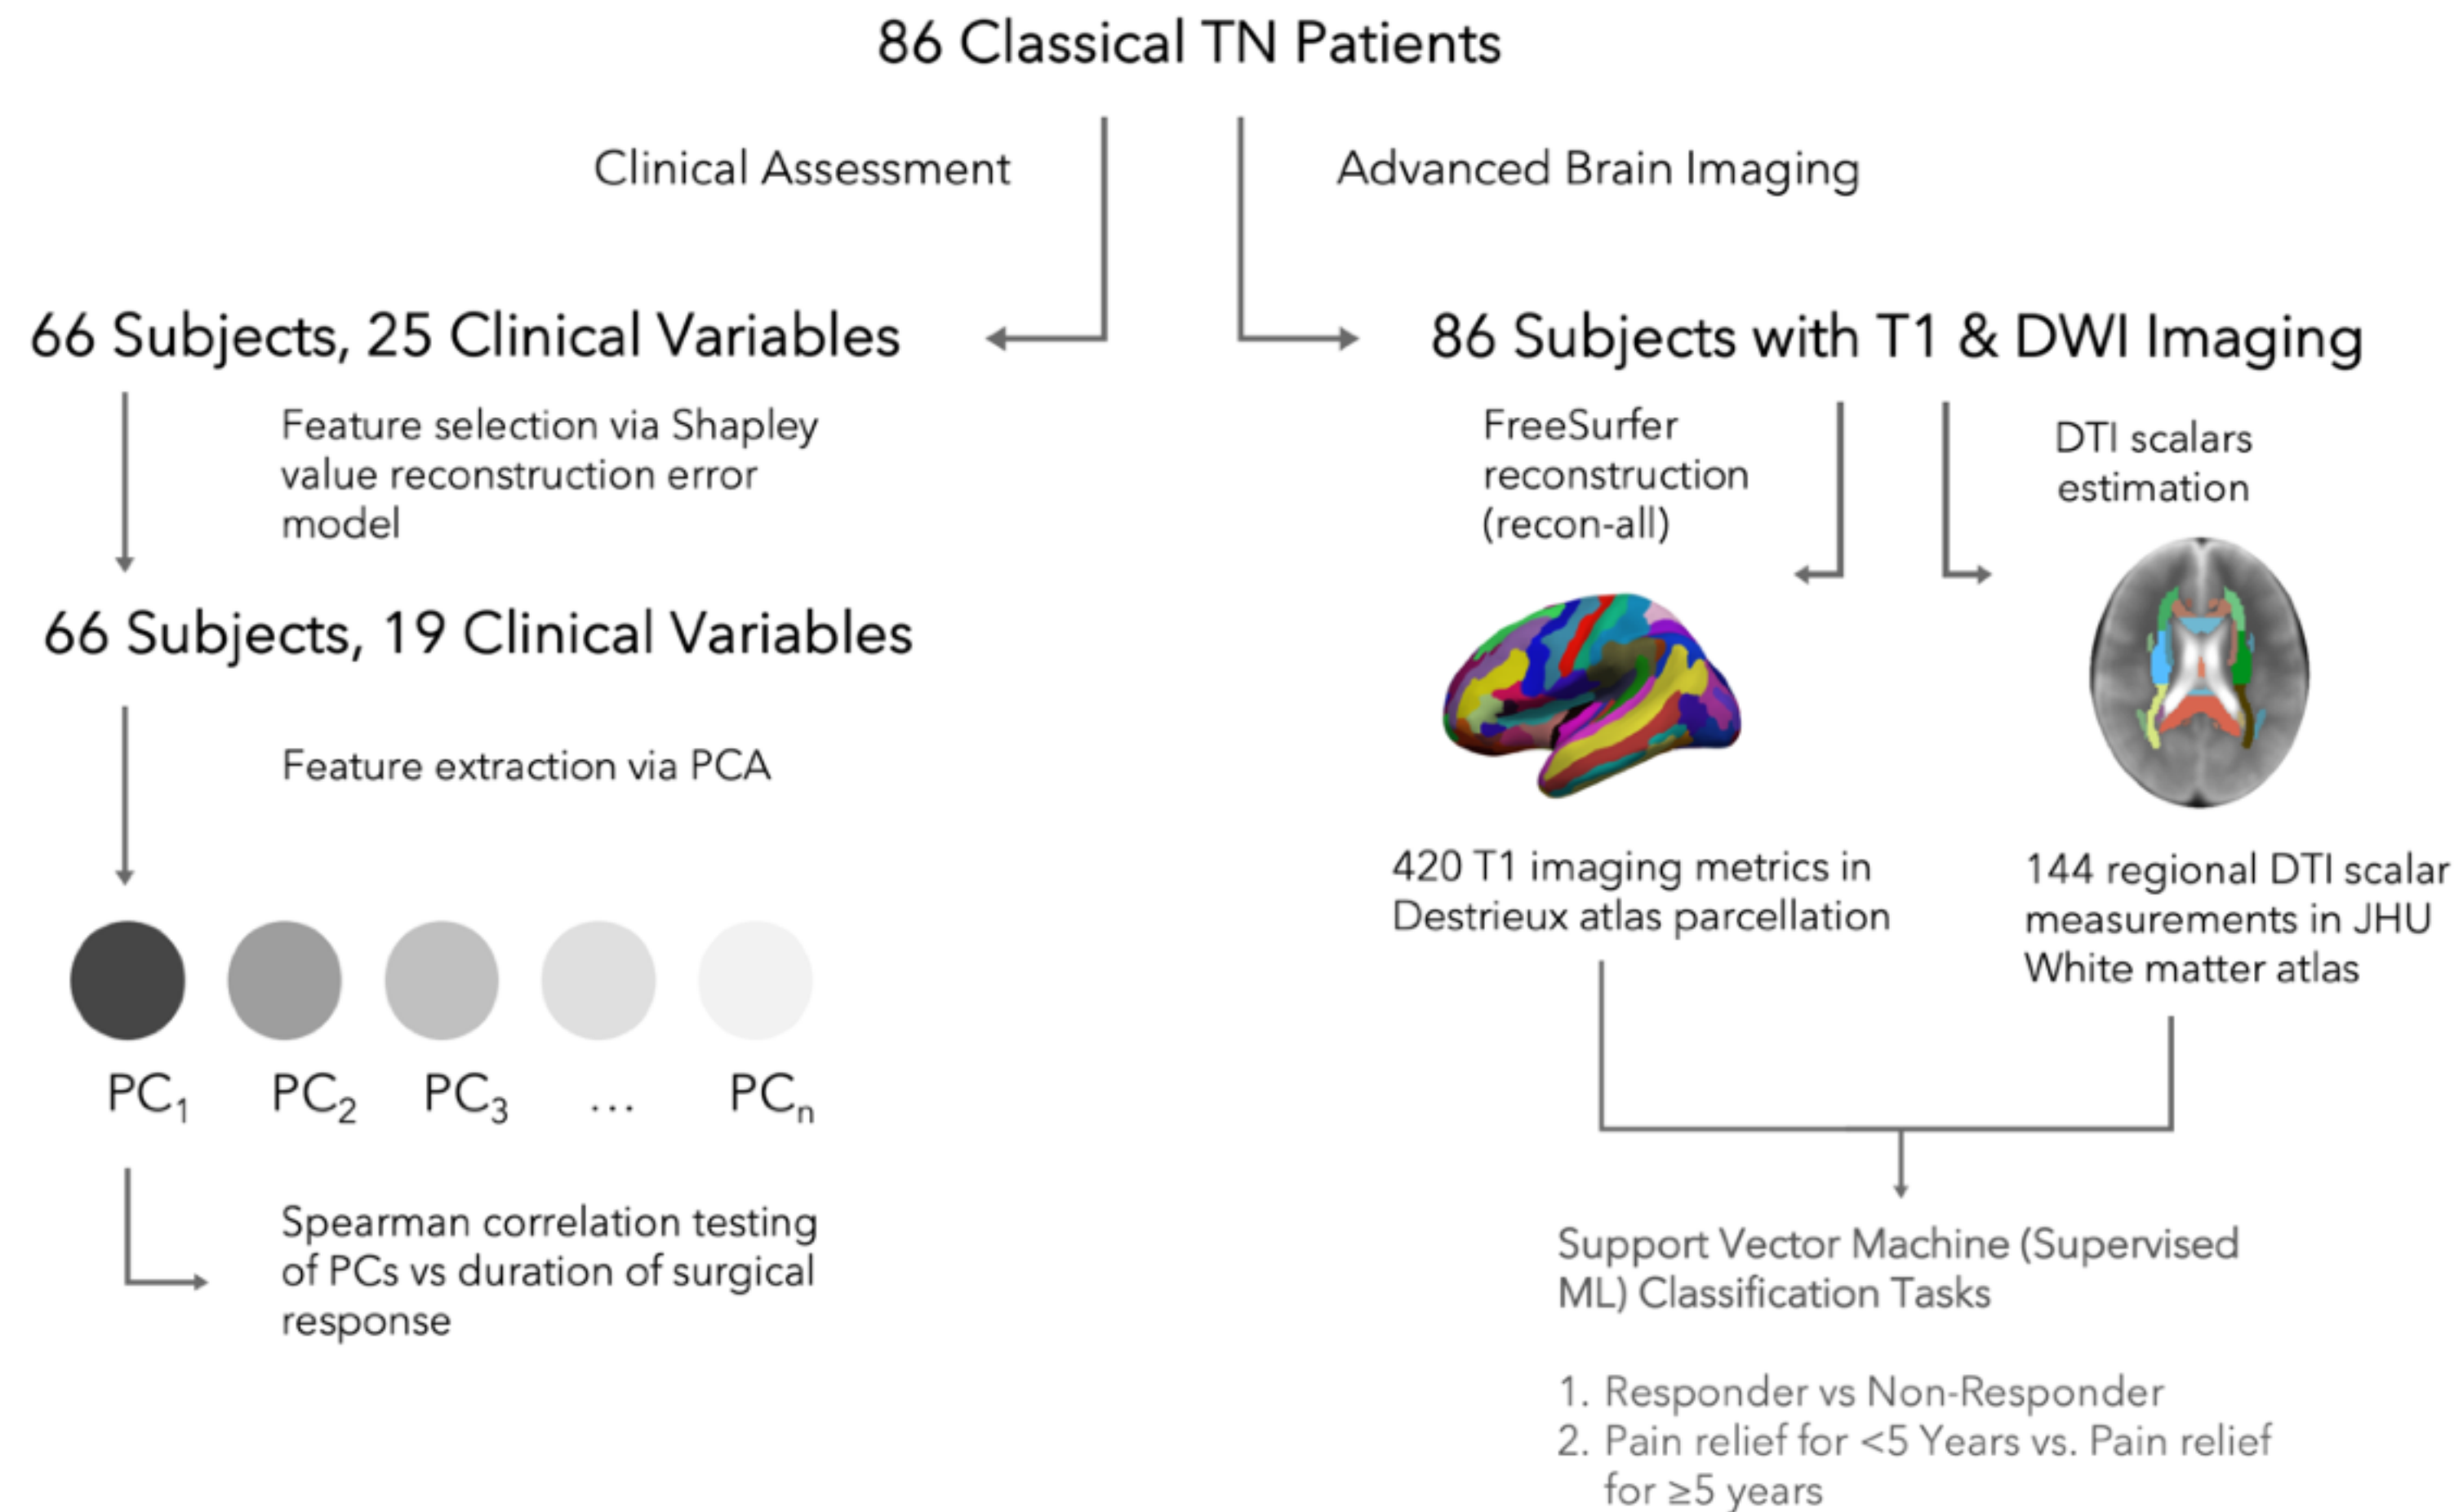

SVM Classification task
10-fold Cross-Validation

Design of study

Work in progress

Subjective branch

Objective branch

TN: trigeminal neuralgia, PCA: principal component analysis, PC: principal component, DWI: diffusion weighted imaging, DTI: diffusion tensor imaging, JHU: Johns Hopkins University, ML: machine learning
